Car Maintenance Schedule by Mileage

A box marks each service on the normal schedule from 5,000 to 150,000 miles. Tick it when done. Short trips, towing, extreme heat or cold, or dusty roads count as severe service: use the shorter intervals in your manual.

Vehicle: VIN: Starting mileage:

By time, whatever the mileage

Service	Every	Done	Done	Done	Done	Done
Brake fluid	3 yr					
Battery test	1 yr					
Wiper blades	6 mo					
Wheel alignment check	1 yr					

Time limits still apply when you drive little: oil at least yearly, brake fluid about every 2-3 years. Follow your owner's manual or oil-life monitor where it differs.
